Networking and System Security
Assignment 6

David van Erkelens (10264019)

Department of Computer Science

University of Amsterdam

November 22, 2012

1 Introduction

Before getting started with answering the questions, I want to make clear that I deliberately chose to note my findings in LaTeX, simply because I hate working with Microsoft Word, and I don't want to be forced into working with this program as a computer scientist.

2 Task 1

TCP Handshake and Statistics

1. (a) **Client IP:** 145.18.214.201
   (b) **Server IP:** 195.169.124.10
   (c) **Source Port:** 56653
   (d) **Destination Port:** 80 (HTTP port)

2. (a) **TCP segments:** 29
   (b) **Sent bytes:** 42334
   (c) **Received segments:** 29
   (d) **Received bytes:** 3890
